shivamthegreat116@email.com • +91 7827777291 • LinkedIn • GitHub

Education

- **AKTU University/ Lloyd Institute Of Engineering And Technology** — B.Tech in CSE (AI & Machine Learning), 3rd Sem 2027
- **Senior Secondary School / Junior College** — Class XII (Science / PCM) 2023

Research Interests

Passionate about advancing Artificial Intelligence and Computer Vision through practical innovation, with primary interests in Machine Learning, Deep Learning, Computer Vision, and Human-Centric AI Applications. Interested in building real-time vision pipelines, stress and emotion analysis systems, improving inference efficiency, and exploring real-world implementations of intelligent software.

Skills

- **Programming:** Python, Java (Basics), C++, C, JavaScript
- **Web Technologies:** HTML5, CSS3, JavaScript (DOM, Responsive Design)
- **Core CS:** Object-Oriented Programming (Java), Data Structures (Basics)
- **Developer Tools:** Git, GitHub, VS Code, Jupyter Notebook
- **Soft Skills:** Problem Solving, Analytical Thinking, Teamwork, Technical Writing

Projects

- **Real-Time AI-Based Stress Management System**
  Real-time computer vision system evaluating psychological stress and fatigue indicators from live camera streams using OpenCV. Employs facial landmark analysis and emotion metrics to trigger automated relaxation interventions via a web dashboard.

Experience

- Built end-to-end computer vision prototypes integrating live camera feeds, image processing, and interactive web frontends.
- Proficient in designing structured, responsive, and mobile-friendly web layouts using semantic HTML5 and modern CSS3.
- Practical foundation in Core Java and Object-Oriented Programming paradigms applied to algorithmic problem solving.
- Active learner pursuing specialized industry certification in Computer Vision Engineering from MathWorks.
- Demonstrated strong technical communication, analytical problem-solving, and collaborative team skills in technical projects.

Certifications & Achievements

- **Web Development:** Front-End Fundamentals Certification (HTML5, CSS3, JavaScript)
- **Programming & Core:** Foundations of Object-Oriented Programming with Java & Python for AI
- **Achievements & Hackathons:** Smart India Hackathon (Internal round qualified)
